Enhancing Education Through Technology (EETT)	Competitive **Description:** The primary goal of the EETT program is to improve student academic achievement through the use of technology in elementary and secondary schools. It is also designed to assist every student -- regardless of race, ethnicity, income, geographical location, or disability -- in becoming technologically literate by the end of eighth grade, and to encourage the effective integration of technology resources and systems with professional development and curriculum development to promote research-based instructional methods that can be widely replicated. **Funding Mechanism:** Under the EETT program, the U.S. Department of Education provides grants to state educational agencies (SEAs) on the basis of their proportionate share of funding under Part A of Title I. States may retain up to 5 percent of their allocations for state-level activities. Wisconsin distributes one-half of the remainder by formula to eligible local educational agencies (LEAs) and the other one-half competitively to eligible local entities.
