

2010 Recommended Budget
County Board tax proposals
October 26, 2009

A member of the County Board contacted my office today with a concern that a plan currently being discussed in some of the offices of the County Board would balance the 2010 budget with an increase in the property tax levy, creation of a new wheel tax and another sales tax (which has yet to be approved by the State Legislature).

Employers in the four-county area have cut 49,600 jobs in the past year. Why would we want to do anything to make it harder to retain or create jobs in Milwaukee County?

Scott Walker
Milwaukee County Executive
